

# Trace View

***First Draft by***

Alexis Thomas

Sarim Saifoor Gul Kiani

Muhammad Ahmad Shah

## ***Early Stages***

- Knowledge gathering
- VSCode Extension development
- Creating Advanced Extensions
- Input and processing of static trace files in VSCode extensions

## ***Graphical Extensions***

- Basic graphical extensions on VSCode
- Extensions involving line graphs on VSCode
- Developing line graphs using static trace files

## ***Dynamic Input***

- Adding dynamic data to the extension
- Creating dynamic graphs from the dynamic data

## ***Graphical Features***

- Adding tool-tips and legends
- Interactive data representation
- Graph Scrolling

## ***Testing and Documentation***

- Testing all features for both Windows and Linux Operating systems
- Final Report of the complete application
